PROFESSIONAL EXPERIENCE

Software Developer

May 2023 – Present (2+ years)

Abacus Desk IT Solutions · Faridabad, Haryana

- End-to-end ownership of multiple enterprise CRM products — Ozone, TMT Polymers, Prayag, Pearl and Pureflow — serving manufacturing, polymer and FMCG distribution clients.
- Built SFA modules: geo-tagged field visits, beat planning, order booking, route optimisation and live performance dashboards for field sales teams.
- Engineered Loyalty platforms: configurable reward point engine, multi-tier customer segmentation, redemption workflows and time-bound campaign management.
- Developed DMS modules: real-time inventory tracking, stock alerts, full order dispatch lifecycle and dealer performance analytics.
- Shipped React Native & Ionic 3 mobile apps with offline-first architecture and background sync for field agents operating in low-connectivity environments.
- Designed RESTful APIs with NestJS and PHP; optimised PostgreSQL and MySQL queries for high-volume transactional workloads.

KEY PROJECTS

Ozone CRM

- Full-suite CRM covering SFA, Loyalty and DMS with real-time KPI dashboards — targets vs achievement across multiple regions and roles.
- Implemented role-based access control for admin, distributor and field agent personas, each with scoped data and custom UI.

TMT Polymers & Pureflow

- Dealer & distributor lifecycle: onboarding, order flow, payment tracking, returns and performance reporting.
- Loyalty reward automation with configurable tier upgrade rules and promotional campaigns driving repeat orders.

Prayag & Pearl — Mobile Field Apps

- Cross-platform apps for 100+ field agents — GPS check-in, visit reports, order capture with offline queue and background sync.
- Automated SFA reporting pipeline reducing manual data entry and improving accuracy of management dashboards.
