CAREER OBJECTIVE

Passionate Frontend Developer with strong expertise in building responsive, high-performance web interfaces using HTML, CSS, JavaScript, and React.js. Skilled in crafting pixel-perfect UI components, ensuring cross-browser compatibility, and delivering seamless user experiences. Committed to writing clean, maintainable code and staying current with modern frontend technologies.

PROJECTS

IMDB CLONE | Javascript, CSS, HTML | GitHub

June 2024

- Users can search for movies by entering keywords; app fetches results from an external API.
- Displays movie details including title, year of release, and plot summary.
- Built with HTML, CSS, and JavaScript for a responsive, user-friendly interface.

ChatLab | JavaScript, CSS, HTML, socket.io | GitHub

May 2024

- Created an anonymous real-time chatting app.
- Users can create or join rooms; features include active-user list and typing indicator.

Cook's Guide | JavaScript, CSS, HTML | GitHub

February 2023

- Search recipes via keywords using TheMealDB API; view ingredients and instructions.
- Mark recipes as favourites for quick access to preferred dishes.

Placement Cell | JavaScript, Bootstrap, HTML | GitHub

March 2024

- Admin-only controls for adding student details, interview listings, and enrollment.
- Supports CSV export of all data for easy access and analysis.
